

NUTS NOTES

Vol 14 No 1 Editor: A Huxtable 78 Toynbee Road LONDON SW20 8SR Spring 1976

EDITORIAL

Barry Norman, writing in "The Guardian" on 10 March, claimed "that there are simply too many statistics about" and that "gathering statistics is a growth industry on account of it's a whole lot easier than working". Well, I'm sure we all disagree violently with the latter assertion, although we might agree (if only in a slightly sneaking way) with the former.

I quote this humorous piece to emphasise that we have produced this year two reference works (the Kraft Olympic Athletics Handbook and the UK Athletics Annual 1976). The time available for us to compile and check the material for the Kraft Handbook was inadequate, as the unfortunately rather large number of errors and omissions shows. I think we can feel reasonably pleased with the results, however. All it requires is for every member to sell them - in large quantities!

We haven't yet decided on the venue and date for the AGM; it was suggested, however, at the last EC meeting that either 14 August (AAA Championships) or 11 September (England v Norway) would be suitable. Please let me know if you prefer one or other of these dates.

Finally, here are the list compilers for 1976: MEN (Seniors) - 100m-200m: Mike Woolf; 400m: Linda Bonthron; 800m-2000m: Mike Strange; 3000m-30km: Bob Phillips; 20M & Marathon: Dave Bendy; 2000m-3000mSt: Hedydd Davies; 110mH-400mH: Shaun Adair; Walks: Colin Young; Relays: Keith Morbey; HJ & PV: Celia Parton; LJ: Jeff Carter; TJ: Richard Hymans; SP & DT: Peter Hopkins; HT & JT: Len Gebbett; Decathlon: Alan Lindop. (Juniors except Walks) Alan Lindop; (Youths except Walks) Nigel Bailey; Walks (Juniors & Youths): Dave Rowland. WOMEN (Seniors except Walks): Liz Sissons; Walks: Robert Cole; Relays: Keith Morbey; (Intermediates & Juniors) Tony Miller; (European Juniors): Peter Martin. Relays (all junior age groups): Keith Morbey.

WHO'S WHO IN THE NUTS

Nigel James Bailey b. Lichfield (Staffs), 23 December 1943; 1.68m/70.0kg; Teacher; Married, 1s; other interests: music (all forms), reading, other sports; educ: Cannock GS, Univ. of Aston; Athletics interest started: 1958; Best marks witnessed: 44.9 (hand) Otis Davis & Carl Kaufmann (1960); 3:35.6 Herb Elliott (1960); 4:01.4 Lyudmila Bragina (1972); 4801 Mary Peters (1972).

Linda Jean Bonthron b. Musselburgh (Midlothian), 10 March 1956; 1.60m/58.0 kg; Tax officer (Higher Grade), Inland Revenue; Single; Other interests: all other sports, photography; Educ: Thorpe GS, Norwich; Athletics interest started: 1968; Best marks witnessed: 69.48 Faina Melnik (1973); 66.10 Ruth Fuchs (1973).

Richard Hymans b. Chorleywood (Herts), 2 October 1948; 1.74m/75.0kg; Accountant; Single; Other interests: cinema, music, literature, gonzo journalism; Educ: York House, Rickmansworth; Fettes C, Edinburgh; Athletics interest started: 1956; Best marks witnessed: 27:30.8 Dave Bedford (1973); 1:44.8yr Peter Snell (1960); 16.74 Józef Schmidt (1965); 13:22.8 Ian Stewart (1970); 90.68 Klaus Wolfermann (1973); 13.4 Rod Milburn (1975); 3:36.6 Kip Keino (1970).

Martin Cairns Kennedy b. Glasgow, 22 April 1911; 1.63m/60.5kg; Retired headmaster; Married, 1s, 1d; Other interests: writing, walking; Educ: Didsbury TC; Athletics interest started: 1950; Best mark witnessed: 11.2 Shirley de la Hunty (1952).

David Robert Rowland b. London, 25 September 1955; 1.70m/51.0kg; Bank clerk; Single; Other interests: music (pop, progressive, classical, etc), drinking, socials, dances; Educ: St Wilfrids RC Comprehensive S, Crawley; Athletics interest started: 1966; Best mark witnessed: 27:30.8 Dave Bedford (1973).

MISCELLANY

- § NUTS ties and head-squares A reminder that these indispensable items are still available! The ties are 52"x3.5" (blue Terylene) and the head-squares are 27" blue Tricel, both with NUTS motif in white. Prices are, including postage, tie £1.25, head-square £2.05. Order from Andrew Huxtable, 78 Toynbee Road, LONDON SW20 8SR enclosing cheque for the appropriate amount.
- § Montreal 1976 The following members are expecting to be in Canada for the Games of the 21st Olympiad: Shaun Adair, Linda Bonthron, Stan Greenberg, Richard Hymans, Colin Shields, Bob Sparks, Richard Szreter, Cliff Temple, Mel Watman, Alf Wilkins. I should be interested to hear from any other members who intend to go.
- § Dorette Nelson Neal OBE The Secretary to the BAAB Junior Commission has sent me copies of the schedules prepared for the Commission by Alan Lindop and Peter Martin, with an acknowledgment for the continued co-operation of these two. It's very satisfying to know that the work of NUTS members is still held in high regard.
- § Statistical Publications Copies of the following are obtainable from: A Huxtable (address above):
 WOMEN'S T & F YEARBOOK 1975 ed. Pete Pozzoli (2 copies) £2.50
 RACE WALKING STATISTICS 1974 ed. Egon Rasmussen & Palle Lassen
 xditto 1975 (1 copy of each) £0.75
 Prices include postage
- § Leichtathletik 1962-73 Chris Thorne has these issues for disposal; if you are interested please contact him at St Catharine's College, CAMBRIDGE CB2 1RL (0223 59445).
- § The NUTS were pleased to send Celia Cotton a cheque for £10 to mark her marriage on 14 February. The new Mrs Parton thanks members for "a very nice surprise" and reveals that it "has been well spent on a carpet sweeper". We hope to see you both at CP this season!
- § You will have seen the article by Peter Lovesey on Marshall Jones Brooks ("AW", 13 March issue). Peter points out that 1876 was a leap year, as was 1956, when Charles Dumas became the first man to top 7 feet. He suggests that, at that rate, we may see 8 feet in 2036, "if any of us are left"!
- § Nice too, to hear from Margaret Gould who has "little free time" (we could use your tremendous abilities on an electric typewriter!) and Nobby Clark who hopes to "attempt something in the veteran's sport this year". He also sends regards to all members known to him and hopes to see some of them at the CAU Championships.

EQUALISATION LIST by Richard Hymans

The following list is an attempt to show an all-time list in order of merit. Factors such as the type of track, altitude, wind and timing (hand, semi-automatic or fully automatic) have been evaluated. The list has been prepared with as much objectivity as possible, but in the final analysis any such compilation is partially subjective.

Factor A (Type of track): While synthetic surfaces do vary, the variation is minimal when compared to old cinder or grass surfaces. Accordingly, cinder/grass surfaces have been given an improvement factor: for 100m 0.08 for 200m 0.16.

Factor B (Altitude): It comes as no surprise to cognoscenti that the fastest automatic times have been recorded at high altitude. I consider that each 100m of altitude assists the athlete by 0.004 in the 100m and 200m per metre. Thus, Mexico City at 2200m gives the following factors: 100m add 0.088, 200m add 0.176.

Factor C (Wind): If one accepts that 2.0m per second is the amount which assists an athlete by 0.1, then times recorded with wind assistance are adjusted accordingly, e.g. +1.6m/s add 0.08, -1.6m/s deduct 0.16

Factor D (Timing): This is the most variable factor of all. Hand timing varies from country to country and even within areas, e.g. USA - Eugene/Florida hand timings are generally more inaccurate than those in California. The following adjustments to hand timing have been made: ITA/Eugene/Florida/GDR/Finland/CSR add 0.25, Texas/Italy/SU add 0.20, GB/France/Poland/GFR/etc add 0.15.

SOME GENERAL COMMENTS ON RANKINGS by Andrew Huxtable

Having been involved in the compilation of UK Annual Rankings (first in "Modern Athletics", then in "AW"), I know how fascinating (and often how difficult) they are to produce. The major difficulty, it seems to me, is the lack of any clearly agreed criteria in determining the order of ranking. Perhaps a weighting system for each of the factors usually taken into account (sequence of marks, win-loss record, performances in major meets) could be considered?

I can already hear some of you (including our highly esteemed Chairman!) objecting that this suggestion is impracticable, particularly where, for example, an athlete has only one performance in the year, or where the athlete in question has not met any of the other contenders. However, these problems are not insuperable and I have one or two ideas on how they might be overcome.

I would welcome members' comments and suggestions on this topic.

OLYMPIC GAMES: STOP PRESS!!!

Add to the list of members going to Montreal (p 2) Maeve and Sean Kyle.

We think it would be a good idea to have an Olympic forecasting competition for members and you are accordingly invited to submit your predictions of the winner in each event to the Editor (Andrew Huxtable, 78 Toynbee Road, LONDON SW20 8SR) by not later than 22 July 1976. To make it even more interesting, you can give your forecast of the winning performance in each event. The winner(s) will receive an award (form yet to be decided!).
