

NUTS NOTES

Vol 15 Nos 3/4 Editor: A Huxtable 78 Toynbee Road LONDON SW20 8SR Winter 1977/8

EDITORIAL

With the death on 14 January of our President, Harold Abrahams, the NUTS has lost its "father figure" but whose continued interest and encouragement for almost twenty years was, as I said in the 10th birthday issue (Vol 6 No 1), "much more than that normally expected from a "figure-head"". In fact, he attended 74 EC meetings, the last occasion being on 16 December. It was a privilege to have known him and our disputes with him, though often fierce, were never rancorous.

A tribute by Norris McWhirter will appear in UK ATHLETICS ANNUAL 1978 and it is hoped to publish a significant feature on HMA in the 20th birthday issue (see below).

MISCELLANY

Geoff Clarke has made the extremely generous offer of 12.5% (minimum) discount to members on any sports equipment and clothing purchased from Sport Spree (Leeds) Ltd, 8 Bridge End, LEEDS LS1 4DJ (0532 454162) or write to him at 9 Whitehouse Avenue, Great Preston, Woodlesford, LEEDS LS26 8BN.

Ian Steedman reports on NUTS representation in the World Masters' T&F Champs at Göteborg (8-13 August 1977):

Maeve Kyle (Class W2A) 100m 13.1 (1st), 400m 62.8 (1st), LJ 4.80 (1st), DT 27.22 (4th). HJ and SP unknown.

Mel Wilson (Class M1B) 100m, 200m, 400m did not qualify.

Ian Steedman (Class M1B) 110mH 18.0 (3rd), 400mH did not qualify.

We'll be holding our third annual members' film evening on 31 March at Rank Preview Theatre, 127 Wardour Street, LONDON W1V 4AD starting at 7.15 pm. The programme promises to be the best so far with "College" (Buster Keaton, 1927 with Lee Barnes making a brief stand-in appearance), "The Runner" (1962 short with Bruce Kidd and commentary by W H Auden), "Muscle Beach" (1950 short directed by Joseph Strick and Irving Lerner), together with, it is hoped, the IAAF film of the 1977 World Cup in Düsseldorf and extracts from the BBC coverage of the 1977 Lugano Trophy. Please complete the booking form which I shall be distributing shortly.

You should have received a brochure and booking form for the NUTS tour to the 1978 European Championships in Praha; if you intend to go please return the form to Alan Gill (Venus Travel Ltd) as soon as possible. If you think you could usefully distribute some brochures please let him or me know.

I mentioned in my circular letter of 26 September 1977 that we shall be producing a special issue of NUTS Notes to mark the 20th birthday of the organisation. The planned publication date is mid-June, so I'd appreciate receiving your contribution - which may be on any subject and of any length - by the end of April. We're hoping the contents will be at least as challenging as those of the 1968 edition.

WHO'S WHO IN THE NUTS

David Burton b. Nottingham, 12 January 1935; 1.80/63.0; Metallurgist; married, 4s; ed. King's S, Pontefract, High Storrs GS, Sheffield & Sheffield C of Commerce and Technology; other interests: reading, music and most other sports esp Rugby Union; athletics interest started 1947; greatest performances witnessed: 3:57.2 Derek Ibbotson (1957), 1:47.7 Sebastian Coe (1976) and on TV 2:01.1 Ann Packer (1964), 8.90 Bob Beamon (1968); best marks: 100m 11.8 (1976), 200m 23.7 (1976), 400m 59.7 (1977), LJ 5.93 (1977).

Eirian Peter Joseph Rowan b. Belfast, 4 June 1948; 1.70/64.0; Clerical Officer (Civil Service); single; ed. St Augustine's SS, Belfast; other interests: table tennis, soccer, pop music; athletics interest started 1973; greatest performances witnessed: 13:24.8, 27:40.4 and 2:13:10.8 Lasse Viren (1976) on best marks: 1500m 4:05.0, 1M 4:25.1, 3000m 8:44.0, 5000m 15:14.7.

John Softley b. Blackhill (Glasgow), 6 June 1949; 1.75/73.0; Instrument technician; single; ed. St Patrick, St Francis, St Dominic and Holyrood SSS, Glasgow; other interests: crime fiction (esp Sherlock Holmes), occult, music; athletics interest started 1958; greatest performances witnessed: 13:22.8 Ian Stewart (1970), 28:11.7 Lachie Stewart (1970).

Audrey Spinks b. Leigh, Reigate (Surrey), 4 November 1926; Housewife; married, 2s; ed. Dorking CS; 1.45/54.0; other interests: reading, craftwork, birdwatching; athletics interest started 1945; greatest performances witnessed: 13.6 Mark Holtom (1977), 17.23 Tony Zaidman (1977).

FORECASTING by Pat Brian

Some of you may not know that Andrew has now retired from that most onerous of athletics' tasks - the wind-gauge operator. For as long as I can remember, Andrew has withstood drought and flood, sun and storm to record for history the wind speeds of sprints and horizontal jumps at all of Britain's leading meets.

Like all those present at the first day of the 1975 WAAA Championships, one can appreciate the finer points of the job. Most will have seen the classic picture taken that evening by the late Ed Lacey (UK ATHLETICS ANNUAL 1977, p. 4) of Andrew, complete with inverted umbrella, recording yet another rain-soaked, wind resisted heat! And, true to character, at the end of the evening, the closest he came to complaint was a smile. I salute a brave official and wish him a very happy, dry and wind-free retirement.

No doubt you are asking what that has to do with forecasting. Answer: not a lot, but it introduces the reader to the reason why I sat close to Andrew at last year's AAA Championships. He started it all by asking those members of the NUTS around him for track forecasts; winner's name and time.

I present the following table, not only as an ego-trip, but also to seek the views of those amongst us blessed with more grey matter than me (so that shouldn't be difficult).

<u>Event</u>	<u>My Forecast</u>	<u>Actual Result</u>
100m	Edwards 10.54	Edwards 10.48
10,000m	Foster 27:45.0	Foster 27:45.66
800m	Savic 1:46.2	Savic 1:46.25
110mH	Price 14.41	Price 14.17
5000m	Quax 13:27.0	Black 13:33.2
1500m	Coghlan 3:38.9	Coghlan 3:43.0
400m	Andrews 46.30	Andrews 46.00
3000mSt	Coates 8:32.0	Coates 8:28.3
400mH	Graybehl 50.57	Graybehl 49.96
200m	Edwards 21.09	Edwards 21.05

Would someone supply the following answers:

- (i) why didn't I get 10 winners (instead of 9) out of 10?
- (ii) what is the percentage deviation in each event?
- (iii) what is the mean average deviation?
- (iv) what standard error should I apply to future forecasts?
- (v) do I stand any chance on the horses or dogs? I did not make a bean out of the above!

Finally, I would like to add three footnotes to the table:

- (a) the headwind in the 110mH final dropped from a pre-race average of 1.9125 m/s to 0.9 m/s; that must have been worth 0.24 sec to Price!
- (b) 65.2 first lap in 1500m ruined my chances of a fast time. Oh, 'tis ever was!
- (c) who the hell is Dick Quax, anyway?

PS. Belated congratulations to Steve Mitchell on a pb and NUTS record in 3000mSt heat of 8:49.9, and condolences to Colin Shields (he'll know why).

U.K. ALL-TIME LIST - 6 MILES/10000 METRES
